POST-OPERATIVE INSTRUCTIONS

THE FOLLOWING ARE SOME IMPORTANT CONSIDERATIONS REGARDING THE FIRST WEEK FOLLOWING YOUR SURGERY:

- 1. Expect mild scratchiness, irritation, and/or discomfort. Also expect blurred vision for 3-5 days after surgery.**
- 2. Do not rub or scratch your eyes.**
- 3. Take Tylenol or other aspirin-free pain reliever as needed for pain.**
- 4. Before lying down or going to bed, place the clear plastic shield over your eye with the provided tape.**
- 5. Wear some protection over the operative eye during the day, such as sunglasses provided in your post-op bag.**
- 6. If you experience any problems other than those relayed to you by myself or my staff, please do not hesitate to call our office at (706) 323-8127, or for EMERGENCIES my cell phone # is: (706) 536-2727.**
- 7. You may return to work after your one day post op appointment.**
- 8. See reverse side for medication instructions.**
